

**AMENDMENTS TO THE SPECIFICATION**

**I. Amendment of Drawing**

The Examiner asserts that “Figure 1A and Figure 1B” have not been found. While “Figure 1A” is found, “Figure 1B” is not found because it was mislabeled. Accordingly, Applicants submit replacement drawings.

**II. Amendment of Title**

The Examiner asserts that the Title of the invention is not descriptive because the instant Title is directed to thermodynamic propensities while the claimed invention is directed to a method and computer readable medium. Accordingly, the Examiner is directed to cancel the instant Title and replace it with “METHODS TO IDENTIFY A PROTEIN FOLD” since this new Title is descriptive of the invention.
